Daniel Boada

Front-End Developer

(954) 451-8530 | danielboada.dev@gmail.com | LinkedIn: /danielboada

Skills & Abilities

- **Web Development:** Angular 16+, TypeScript, JavaScript, HTML, CSS/SCSS, jQuery, JSP, RxJS.
- **Developer Tools:** Git, NodeJS, RESTful API, Unit Testing (Karma, Jasmine), NPM, Docker, Figma.

Work Experience

Westgate Resorts - Front-End Developer - www.my.westgateresorts.com   **Dec 2022 - Present**

- Developed new features and enhancements for client-facing websites, focusing on adding new functionality and fixing existing bugs, taking into account performance and seamless user experience, while implementing good code practices focused on scalability and readability.

- Delivered high-quality projects by developing new features, refactoring existing code, and collaborating closely with Designers, Backend Developers, Project Managers, and other Front-end Developers to meet deadlines and maintain project and code standards.

- Modernized legacy JSP components by refactoring them into an Angular-based framework, improving code maintainability and scalability. This allowed the team to increase our delivery speed by having cleaner code.

- Contributed significantly to accessibility improvements by implementing key changes, enhancing usability and compliance with industry standards using the WCAG standards for ADA compliance, including adding focus states, text-to-speech labels, improving keyboard accessibility, and using semantic HTML elements.

- Integrated Google Analytics to track key website metrics, enabling data-driven decision-making by providing detailed insights into user behavior, navigation patterns, and engagement levels, allowing the team to identify areas for improvement to optimize user experience and implement strategic enhancements

Freelance - Web Developer   **Jul 2022 - Dec 2022**

- Nova USA Wood (www.novausawood.com) - Updated website into a modern looking web application by translating existing Figma designs using ASP.NET, HTML, CSS

- Group Win Cleaners (www.groupwincleaners.com) - Designed and developed a website for a family-owned cleaning company to reflect a modern and clean look using Squarespace

Disney Cruise Line - Technical Lead - Consultant at Capgemini   **Apr 2021 - Jul 2022**

- Managed a new team of 7+ developers through 2 projects, supervising development and delegating tasks, while ensuring deliverables were correct and completed on time.

- Gained 2 new contracts for the company, totaling to more than $320,000 in revenue, by demonstrating to the client the capabilities and competence of the development team during our previous projects.

Disney Resorts - Front-End Developer - Consultant at Capgemini   **Mar 2020 - Apr 2021**

- Engineered fixes and added new functionality to 3 existing applications, and implemented a new Single Page Application (SPA) using Angular 6+, TypeScript, HTML, and SCSS.

- Delivered moderate and high complexity stories on time, making sure high quality code was provided and while maintaining high Unit Test Coverage using Karma and Jasmine.

Education

Bachelor in Computer Engineering - Florida Polytechnic University   **Jun 2016 - Dec 2019**
